## June 2019 Newsletter

### June 2019 Newsletter

#### **Club Championship**

Good luck to all competitors in all our sections from ladies, gents to juniors. The presentation will be held on Saturday 22nd June.

#### **The 2019 Course**

Our new 6 hole development course is nearing completion, over the next few weeks the tees and course furniture will be installed. Our first planned event is a disability event on Thursday 20th June where we will welcome over 20 kids, a hugely exciting event for our golf club.

At the end of May, myself, George and Scottish Golf met the headteachers from our local primary schools and Kirkcaldy High School. The feedback was extremely positive and we look forward to working with all our local schools from August onwards. The plan is to bring entire primary school classes up to the new facility and they will enjoy taster sessions into golf. The classes will also make use of our S11S junior lounge facilities and also learn about biodiversity on the golf course and in the park.

#### **Get Into Golf**

At the end of June we will be launching our next new initiative to attract new golfers to our great game. The three month promotion will offer a package to encourage adults who have never played golf to take up the sport. The package will include restricted access to the golf course, the 6 hole development course, free access to equipment, access to the golf club and lessons from our professional. If you know anybody that is looking to get into golf keep an eye out for our promotion over the next few weeks via social media and printed flyers.

#### **Club Entertainment**

Tickets are now on sale for our Italian themed buffet evening and quiz on Friday 5th July, the cost is only £10/head.

#### **Launch of Greenkeepers blog**

This month we are launching a new monthly blog from Matthew, who is one of our greenkeepers and also a club member. The blog will be issued along with the monthly newsletter and will provide an update on what is happening on the golf course. We hope this will provide useful information and also build relationships between members and our green staff. In this month's first edition, the blog includes an introduction to all the greenkeepers that work on our course.
